NEWS FROM OUR DEVELOPMENT

FEATURES

OUR VISION

With the prototype of the new cattle splitting bandsaw, FREUND presents the main advantages of this model to its customers..

- the splitting bandsaw is designed for halving cattle in mixed farms and cattle slaughterhouses
- FREUND's customary solid construction of the saw ensures a long service life in high-frequency line slaughtering in industrial plants
- the customer benefits from the realisation of a modular principle results in availability and cost advantages for machines and spare parts

TECHNICAL DATA

WEIGHT	[kg] / [lbs]	92 / 203
LENGTH	[mm] / [inch]	1.700 / 67
CUTTING DEPTH	[mm] / [inch]	265-318 / 10-13
CUTTING WIDTH	[mm] / [inch]	560 / 22
DRIVE TYPE		electric, 3-phasic (Three-phase)
MOTOR POWER	[W] / [HP]	2.750 / 4
CURRENT FREQUENCY	[Hz]	50
PROTECTION CLASS	[Motor]	IP 67

EQUIPMENT THE BEEF-SAW

- one-hand operation of the cover
- two-hand safety circuit
- ergonomically designed control lever
- integrated internal disinfection
- modular design of the machine
- configurable equipment
- easy to maintain, few wearing parts
- Hourly output: 70 cattle

- two powerful motor variants to choose from: 2.3 kW and 2.75 kW
- 56 cm cutting width for more comfort in use
- Effectively arranged flushing nozzles reduce the bonedust residues on the carcass and, if necessary, save the downstream process step 'cleaning of bonedust'
- Improved ergonomics of the splitter-band-saw ensures fatigue-reduced working and creates high employee acceptance
- Maintenance-friendly design reduces maintenance times and its resulting costs
- Solid construction, designed for a long service life under heavy duty
- hygienic design for quick and thorough cleaning after daily use
- quick belt change thanks to ONE-HAND lid lock
- Inexpensive high-performance band saw blade
- Integrated flushing concept with internal disinfection
